Here are more detailed answers.

Great!

TrophNiche - Reasons for Insufficient Answers

1. I did not send her the possible answers for the multiple choice questions.

TrophNiche - Reasons for Insufficient Answers

1. I did not send her the possible answers for the multiple choice questions.
2. I did not include the explanations for the questions that are in RDMO.

RecovFun - Overview

RecovFun - Overview

Lena was on vacation for two weeks -> only had the meeting last tuesday

Thank you for the deadline extension!

RecovFun - Overview

Lena was on vacation for two weeks -> only had the meeting last tuesday

Thank you for the deadline extension!

Meeting took around 40min, went very smoothly.

I shared my screen and guided her through the catalog while she dictated her answers to me.

RecovFun - Interesting Things and DMP improvements

RecovFun - Interesting Things and DMP improvements

Reproducibility:

- different answers for different data (soil samples and light measurements)

RecovFun - Interesting Things and DMP improvements

Reproducibility:

- different answers for different data (soil samples and light measurements)

Reusing person data records:

- at least one person from the first person data entry question is usually entered in the second one
